Additional Product Information

Overview

Connected 2-wire monitor / Wi-Fi hands-free with 5" color LCD screen.

Product features

Thanks to the Wi-Fi connection, it is possible to associate the video monitor with the Home + Security App

From the App you will be able to control the main functions of the videoportero (receiving the call, opening the locks, activating the outer plate/cyclic display of the cameras, firmware update and additional activations)

Installation can be done on the surface with the corresponding metal stand (supplied) or tabletop thanks to the tabletop stands (2 x 344692) - sold separately.

Power supply via SCS BUS 18V to 27V

description

Connected 2-wire monitor / Wi-Fi hands-free with 5" color LCD screen. It has 2 physical buttons to control the main functions - communication response and completion - it is equipped with 3 touch buttons to control the main functions - lock opening, activation of the stair lights and activation of the outer plate/cyclic display of the cameras - plus 4 configurable touch buttons - e.g. intercom, Activation of the additional lock. The device has a side joystick to regulate: the color, brightness and contrast of the screen, the volume of the audio, the volume of the ringtone and the Wi-Fi settings. It has

LEDs to indicate the status of the call and Wi-Fi. In addition, thanks to the Wi-Fi connection it is possible to pair the device to the Home + Security App (available for Android and iOS). From the App you can control the main functions of the videoportero (...)
