Additional Product Information

Display and audio/video module that is combined with one of the 5 frames in different finishes for 2-wire installations. Equipped with an HQ camera with a wide-angle field of view (119° horizontal - 151° diagonal), white LEDs for illumination and a twilight sensor for night vision. High-resolution 7" touchscreen with anti-shatter glass (IK08), anti-fingerprint and proximity sensor for automatic ignition. Equipped with digital microphone and echo canceller for optimal sound. The flexible and easy-to-use graphical interface adapts to all types of homes and allows you to choose between 3 different call modes: call with address book (list of residents' names), call with numeric or alphanumeric code, and call with logic code building-staircase-floor-apartment. The direct call to the concierge center and logo customization on the homepage also make it suitable for concierge environments or commercial establishments. Thanks to its advanced features such as voice prompt, automatic background change (light/dark), message personalization or welcome instructions and temporary access codes, it is suitable for residents and visitors of all ages and abilities. It also supports different modes of access to the building: code opening, with RFID electronic keys or with Bluetooth via the Home + Security App, the resident app. Programming and setup require the use of the Home + Project app (App or PC), a digital tool for professionals. With this tool, you can carry out all the configuration fr...
