Additional Product Information

Product features

Interface to facilities of the custodian or video door mixed (dorsal IP / plates or stud 2-wire). Allows you to take advantage of all the benefits of the technology (IP pbx, concierge, multi-channel, distances high) combined with the ease of installation of the system 2-wire, making the connection of facilities 2-wire buildings or homes through a backbone network dedicated IP. The device must be used with a feeder 2 threads for the part of the stud, and a feeder for feeding the own interface. Two possibilities of configuration: using configurators, to speed and simplicity, or by PC, for better performance and customization options. 10 modules DIN. Replaces ref. 346890.
