

INDUSTRIAL COMPONENT DATA

LS-XNW-ZBZ 106835 Y7-106835 EATON ELECTRIC

Compensating actuator, angled

Brand: EATON - MOELLER | Manufacturer Part Number: LS-XNW-ZBZ

Manufacturer	EATON - MOELLER
MPN / Reference	LS-XNW-ZBZ
Catalog number	Y7-106835
Category	Actuator for position switch with separate actuator
Minimum order	10 Pcs
Document ID	EO-2BE4B4E22F
Generated	2026-08-01

Product Overview

Compensating actuator, angled

LS-XNW-ZBZ

Eaton Moeller® series LS Compensating actuator, angled

IEC EN 60947-5-1, IP65_x, approval of employers' liability insurance Association GS-ET-19, device for world markets, actuator for electromagnetic door interlock, the ZBZ power switch enhances the safety standard for personnel and process protection through reliable protection and locking of protective doors. The ZBZ power switch works according to two principles of operation: with magnetic force or spring-powered interlock. Spring-powered interlock lends itself optimally to personnel protection. Thus each door stays safely closed even during a power failure. In an emergency, the protective guard should be opened using an auxiliary release mechanism. Magnetic-powered interlocks are used for personnel and process protection. The protective shroud is locked when voltage is applied, in the

UL Product specifications

Type 10.10 Temperature rise Not applicable. 10.11 Short-circuit rating Is the panel builder's responsibility. The specifications for the switchgear must be observed. 10.12 Electromagnetic compatibility Is the panel builder's responsibility. The specifications for the switchgear must be observed. 10.13 Mechanical function The device meets the requirements, provided the information in the instruction leaflet (IL) is observed. 10.2.2 Corrosion resistance Meets the product standard's requirements. 10.2.3.1 Verification of thermal stability of enclosures Meets the product standard's requirements. 10.2.3.2 Verification of resistance of insulating materials to normal heat Meets the product standard's requirements. 10.2.3.3 Resist. of insul. mat. to abnormal heat/fire by internal elect. effects Meets the product standard's requirements. 10.2.4 Resistance to ultra-violet (UV) radiation Please enquire 10.2.5 Lifting Does not apply, since the entire switchgear needs to be evaluated. 10.2.6 Mechanical impact Does not apply, since the entire switchgear needs to be....
