Product Overview

Industrial Gateway Card (Modbus TCP/RTU)

Eaton Industrial Gateway Card (Part # INDGW-M2) - Eaton's Gigabit Network Card and Industrial Gateway Card are the first UPS connectivity devices to meet both UL 2900-1 and IEC 62443-4-2 cybersecurity standards. It enhances cybersecurity protection designed for building management, industrial facilities and large data centers and is compatible with the MODBUS communications protocol. The card provides real-time monitoring of the UPS system and environment through a Building Management System (BMS) or Industrial Automation System (IAS). It allows facility managers to monitor the state of the UPS, power conditions, temperature and humidity within the UPS network, enabling early warning of any threats to the system.
