Product Overview

Rating plug, 1600A, IZMX16

Rate current module for adapting to changes in the basic conditions for an application. The rate current module's nominal value must be less than or equal to the basic device's rated current. The rate current module can be replaced on site without replacing the transformer. Rate current module 200 A, 250 A and 300 A can be combined with P-trip units.
