

INDUSTRIAL COMPONENT DATA

MCCB2-200/I43E-200 138541 Y7-138541 EATON ELECTRIC Housing, insulated material, for molded-case circuit-brea..

Brand: EATON - MOELLER | Manufacturer Part Number: MCCB2-200/I43E-200

Manufacturer	EATON - MOELLER
MPN / Reference	MCCB2-200/I43E-200
Catalog number	Y7-138541
Category	Empty enclosure for switchgear
Minimum order	1 Pcs
Document ID	EO-F792338E1C
Generated	2026-08-05

Product Overview

Housing, insulated material, for molded-case circuit-breaker NZM2 size, HxWxD=375x250x225mm

MCCB2-200/I43E-200

Eaton xEnergy Safety Ci LV systems LV switchgear. Housing, insulated material, for molded-case circuit-breaker NZM2 size, HxWxD=375x250x225mm

Enclosure for molded-case circuit-breaker and switch-disconnector, material characteristic polycarbonate, impact-resistant, degree of protection IP65, patented cover fasteners with integrated overpressure compensation, use as individual enclosure and distribution board, observe the technical data of other equipment when connecting distribution boards, metric cable entry knockouts in all sides, enclosure side plates can be knocked out or grouped next to other devices, mounting plate pre-drilled for switch and pre-drilled for a PE and N terminal, mounting plate made from 3mm sheet steel, sealable cover fasteners, cover type: transparent smoky , predrilled, degree of protection IP65, with switch door coupling rotary handle NZM...-XTVD and extension shaft, fixing material for fixing material, fixing strap BL-CI, not in combination with remote operator NZM...-XR, plug-in unit NZM...-XSV or withdrawable unit NZM...-XAV, rated uninterrupted current $I_u=200$ A, can be used for switch NZM2(-4), N2(-4), N(N/O)2(-4), can be used for terminals K50/1, K95/1N..., K150/1N..., notes: additional terminals for PE- and N-conductor K50/1 K95/1N..., K150/1N.....
