Additional Product Information

Technical data

Description:

Two-component grommet with membrane seal and cable anchorage. The installation does not require tools, it is self-adjusting to its surrounding wall thickness and click-fixed in place. Because of its compact design it only extends 5.7 mm outside the enclosure on which it is mounted. The "pushout" membrane is a permanent seal until it is penetrated by a cable or pipe. Suitable for holes in materials of 0.7 to 3 mm thickness.

Material:

TPE and polyamide 66, halogen free.

Temperature resistance:

-20 °C to +125 °C.

Finish:

RAL 7035.

Protection:

IP 67, 65, waterproof.

Pack quantity:

50 pieces.

Features

Feature:

Innovative two component cable glands with anchorage and self adjustment system.

Advantage:

The cable glands can be installed in enclosures of different thicknesses while the anchorage maintains the cables' position.

Benefit:

The cable glands are compatible with a wide range of enclosures and ensures external strains on cables are relieved avoiding damage to internal equipment.
