

INDUSTRIAL COMPONENT DATA

CED16 ELDON Double protection gland M16 CED16

Brand: ELDON | Manufacturer Part Number: CED16

Manufacturer	ELDON
MPN / Reference	CED16
Catalog number	10000
Category	Cable entry sleeve
Minimum order	1 Pcs
Document ID	EO-AD682583D4
Generated	2026-07-31

Product Overview

Double protection gland M16 CED16

Cable glands with double prot. M16. Pack of 50 units.

Double protection gland M16

Additional Product Information

Features

Description: The rubber grommet is very simple to use. The installation does not require tools, which in turn means lower work cost. The "pushout" membrane is a permanent seal until it is penetrated by a cable or pipe. Suitable for holes in materials of 0.5 to 4 mm thickness.

Material: EPDM, halogen free.

Temperature resistance: -40 °C to +110 °C.

Finish: RAL 7035.

Protection: IP 67.

The protection degree is maintained if the outside layer fails due to damage or external circumstances

The double layer sock is the optimal solution if the outside layer is exposed to external circumstances such as high pressure water

A potential disadvantage of the double layer however is that cables only pass through straight

A single layer sock is available (CES) to allow cable passing through with an angle but the protection degree might be at risk if this single layer fails
