## Product Overview

Fan heater 150W EHV150

Fan hot air 150 W, flow rate of 35 m3/h, 230 V, 50/60 Hz

Fan heater 150W, air flow 35 m3/h, 230V, 50/60 HZ

## Additional Product Information

### Features

Description: High performance space saving fan heater to prevent condensation. The fan assists the natural convection for fast distribution of the heat in large enclosures. Mounting clip for 35 mm DIN rail (EN60715). Temperature safety cut-out to protect against overheating in case of fan failure

Heating element: High performance cartridge.

Material: Plastic according to UL94 V-0, and die-cast aluminium.

Fan life: 50.000 h at 25 °C.

Operating temperature: -45 °C to +70 °C.

Connection: 3-pole screw connector 2.5 mm².

Protection: IP 20, Class I (earthed).

Approvals: CE, EAC.

Pack quantity: 1 piece.

Pack quantity: 1 piece

High performance fan heater with a high heating capacity

The large amount of heat generated by the optimised sized heater is distributed within the enclosure using forced air, produced by the heater's fan

When installed, water condensation will be avoided especially in situations when the ambient temperature dramatically drops

As the air will be distributed by the integrated fan, hot spots within the enclosure will be prevented

A thermostat with a normally closed contact, ETR or EFR, is recommended in order to control the heater

Voltage (V): 230 V AC 50/60 HZ

Protection: IP 20, Class I (earthed)
