

INDUSTRIAL COMPONENT DATA

BGE01 ELDON Gasket kit EMC bottom plate BGE01

Brand: ELDON | Manufacturer Part Number: BGE01

Manufacturer	ELDON
MPN / Reference	BGE01
Catalog number	10000
Category	Cover strip (modular) for meter-/distribution board
Minimum order	1 Pcs
Document ID	EO-33484A05C7
Generated	2026-07-29

Product Overview

Gasket kit EMC bottom plate BGE01

Kit gaskets EMC bottom plate, with cables

Gasket kit EMC bottom plate, and cables, 6m gasket and 1,6 m foam

Additional Product Information

Features

Description: The bottom of the enclosure is sealed by the use of an adhesive gasket applied to the frame around the bottom opening. The cables are sealed by the addition of adhesive foam placed between the bottom plates. The elasticity and the size of this foam ensures a tight seal around most cables. Added conductive material provides a good contact to shield the transfer of electro-magnetic radiation.

Pack quantity: 2 m adhesive EMC gasket for cable entry. For 1600 mm wide enclosures please order 2 sets.

The elasticity and the size of this foam ensures a tight seal around most cables

Added conductive material provides a good contact to shield the transfer of electro-magnetic radiation

The EMC gasket is used to seal the space between the floor standing enclosure's bottom plates

The empty space around installed cables when routed between the bottom plates CBPE, can be sealed to maintain the enclosure's protection degree and EMC rating

The enclosure's protection degree is maintained avoiding the need to use EMC cable glands

The gasket increases the customers flexibility when installing cables, as the cable diameter does not necessarily need to be identified in advance
