Technical data

Description:

For controls, meters, indication lamps etc. The mounted components are protected by a 23.5 mm high frame. The aluminium panel is 3 mm thick and can be removed for drilling or screen printing. The double-bit 3 mm lock can be replaced by any optional insert or handle.

Material:

Aluminium.

Finish:

Anodised aluminium.

Protection:

Complies with IP 54.

Pack quantity:

1 door with mounting accessories.

Features

Feature:

Display aluminium panel with protection frame to replace a standard wall mounted door.

Advantage:

The protection frame is raised 23.5 mm from the surface of the aluminium panel. The aluminium panel can be removed from the protection frame for machining or screen printing.

Benefit:

Components that are mounted within the aluminium panel are protected by the panel's frame. As the frame is removable, the display panel can be machined even by machinery that is limited to working on flat surfaces.
