Additional Product Information

Technical data

Description:

Lighting system with a compact design, suitable for all types of enclosures or racks. It has three possible fixing possibilities: magnetically, screw mounting with a variable distance between holes and/or snap-into 19" rack. It is an electronically operated device and has a service life of 10,000 h. The body of the lighting system is made of PC-ABS. An integrated connector allows the activation of the lamp by a door switch by using the TLCS product without performing any additional wiring. It is provided with a protection cap made of PC and the colour of the light is cold white.

Lamp type:

Fluorescent lamp T5/G5.

Luminosity:

480 Lm.

Power consumption:

8 W.

Operating temperature:

-15 °C to +45 °C.

Dimensions:

448 x 54.5 x 26 mm.

Connections:

2x0.75 mm² open end cable (1.5 m long), 2x0.75 mm² female mini-connector for door switch use.

Approvals:

CE, EAC.
