## Additional Product Information

The SA SL is a swing arm system is designed for use with a control panel, OICP, or with a control enclosure, OICE. It can be used with either open or closed profiles. The closed profiles increase the loading capacity up to a maximum of 450 N. The system is complemented with an extensive range of different elbows and couplings, which allows for the creation of a fully customized solution with standard products. The SA SL system has been tested to prove it withstands vibrations.

Characteristics

Note Open profile

Height 60 mm

Width 45 mm

Length 2000

Item no.:SAS200OSL

EAN no.:8713574117709
