

INDUSTRIAL COMPONENT DATA

EDA40 ELDON Pressure compensation plug EDA40

Brand: ELDON | Manufacturer Part Number: EDA40

Manufacturer	ELDON
MPN / Reference	EDA40
Catalog number	10000
Category	Accessories/spare parts for ventilator
Minimum order	1 Pcs
Document ID	EO-1C9F6FD2EF
Generated	2026-07-29

Product Overview

Pressure compensation plug EDA40
Plug compensac. pressure, plastic, IP66
Pressure compensation plug, Plastic IP66

Additional Product Information

Features

Description: It compensates the pressure with high IP. In the enclosures pressure differentials can occur during extreme temperature variations, when this happens there is risk of dust and humidity inside the enclosure. Even with a slight overpressure, a waterproof membrane inside the plug allows air and humidity to leave the enclosure. In the opposite direction, it only allows dry air into the enclosure. Mounting with thread M40x1.5 with nut, recommended torque of 5 Nm (max. 10 Nm). For optimal pressure compensation we recommend to use two devices on opposite sides towards the top of the enclosure. Air permeability of 1200 l/h at a pressure difference of min. 70 mbar.

Material: Plastic. Sealing gasket NBR.

Operating temperature: -35 °C to +70 °C.

Machining required: Round hole 40.5 mm diameter. Depth in the enclosure of approximately 16 mm.

Protection: IP 66 / IP X9K.

Approvals: CE.

Finish: Light grey.

Pack quantity: 1 piece.
