Additional Product Information

Features

Roof cooling unit with a IP 54 protection degree

The cooling unit can provides cooling to enclosure's that do not have enough space on the door or side panels whether standalone or as part of an enclosure assembly

Floor standing enclosures can be cooled independently of each other, if required; This avoids cooling the entire enclosure assembly, reducing the amount of energy required, saving unnecessary costs

To minimise how much energy the cooling unit consumes, it is recommended to install the door switch, DSW01; Once installed, the door switch will turn the cooling unit off, once the door is opened

High performance cooling unit for roof mounting, the air conditioners cover a cooling capacity range from 600 W to 3800 W

Condensation management system, which prevents all condensation from penetrating into the enclosure

All models are equipped with a condensation dissipator, from 1400 W up to 3800 W units

Easy installation, with a quick release mounting frame

Common to all models is the self cleaning condenser coil, which eliminates the necessity for an air filter, avoiding standard maintenance

All models are equipped with digital display

The cooling capacity for specific conditions are indicated in the diagrams

Ozone friendly refrigerant R134a

Temperature limits inside: +25 °C to +45 °C

Temperature limits outside: +20 °C to +55 °C
