Technical data

Description:

To enable locking of the swing frame in the open position. Mounted directly onto the swing frame and support bars. The door stop can be easily disconnected to provide full opening of the swing frame.

Material:

Zinc plated steel.

Pack quantity:

1 piece with mounting accessories.

Features

Feature:

Zinc plated door stop for floor standing enclosure swing frames.

Advantage:

The door stop can be mounted to the enclosure's swing frame without any need for additional machining and allows the swing frame to be secured in the open position .

Benefit:

Maintainers can work safely inside the enclosure knowing the enclosure's swing frame cannot be closed unexpectedly. The door stop can be mounted easily either in the factory or in the field as no machining is required.
