Additional Product Information

ÖLFLEX® SERVO FD 796 CP, shielded servo cable for high dynamic energy chain applications in severe conditions with UL/CSA AWM and VDE certification

Extended Line:

For demanding applications in portable chains. Long hauls or high accelerations

Extended possible product configurations

proceeds

For faster moving processes and thus increases the efficiency of the machines

Suitable for use with servo motor ranges from market-leading manufacturers

Low capacity construction allows for longer cable lengths between converter and drive

Resistant to contact with lubricants based on mineral oil, dilute acids, aqueous alkaline solutions and other chemical agents

Extended temperature range for applications in severe environmental conditions

Copper braid screen acts as protection against electromagnetic interference

Scope of use

Connection cable between the servo controller and the motor

For cable chains or moving parts of machines
For use in pick & place and assembly machinery
Especially suitable for wet areas of machine tools and transfer lines
Assembly lines, production lines, in any type of machinery.

For indoor and outdoor use

Product features

Fire performance: UL/CSA VW-1, FT1 IEC/EN 60332-1-2

Halogen-free materials

Resistant to abrasion and cuts

Oil resistant
