Additional Product Information

Benefits

Data transmission cable with low capacitance, pair screening and overall copper braiding

Particularly suitable for wiring data systems and controls in large industrial plants

Individually screened pairs and the overall braid minimise electrical interference

Decoupling of circuits by means of

twisted-pair (TP) design (crosstalk effects)

Application range

For enhanced requirements in near-end cross-talk attenuation and high electrical interference in the circuits

Suitable for the transmission with varying in frequency and voltage or sensitive signals

Can be used multifunctional in electronics of computer systems, electronic control equipment, office machines, balances, etc.

For measurement value transmission and serial 2-wire interfaces

Intended for limited flexible use, and for fixed installation in dry or damp interiors

Product features

Flame-retardant according IEC 60332-1-2

Product Make-up

7-wire or fine-wire (from 1 mm²) strands made of bare copper wires
