Additional Product Information

Benefits

Versatile properties make this a convincing product for a wide range of applications.

Best possible sealing enables protection class IP 68 (10 bar) and IP 69.

Optimal strain relief due to flexible slats.

Large, variable clamping range for different cable outer diameters up to 98 mm.

Innovative, double lamella cage in sizes M 75 x 1.5 to M 110 x 2 simplifies installation and prevents leverage with heavy cables.

Application range

For sealing and strain-relieving cable entry into an enclosure.

Withstands high chemical and mechanical stress.

Suitable for outdoor use, taking into account the temperature range.

Norm references / Approvals

UL File Nr. E79903

Product Make-up

Metric connection thread acc. to DIN EN 60423

Basis for technical information DIN IEC 62444

Note

Article numbers ending in "LF" are lead-free product alternatives with the same product properties. "Lead-free" articles do not contain lead, which is currently still allowed to make up to four percent in copper alloys. It could be banned in the future according to the RoHS Directive.

For article names with the suffix "PLUS", the clamping range corresponds to the next higher thread size. The extended clamping range allows the insertion of cables with a larger diameter while maintaining the same connection thread.
