Additional Product Information

RSK one-piece screen connector of the SHIELD-KON System for connecting screened cables quickly

Benefits

The four sizes can be identified by the different colours of the connectors

Gauge helps to find out the appropriate connector and crimping insert (stripped cable with screen is placed in the hole)

Reduced installation time

Application range

One-part SHIELD-KON® screen connector allows screened cables to be connected quickly and permanently

Product Make-up

To process, insert the connector into the tool, then insert and crimp the screen cable and leads or the earthing clamp

When crimped, the connector assumes a round shape and both ends are pushed above each other

When inserting the screened cable to a connector, ensure that the cable insulation overlaps with the connector's MYLAR® insulation

Inside the connector, there is a suspended cover plate for the leads and an insertion for the screened cable.
