Additional Product Information

Lapp Group offers a complete cable trolley system both for flat cables and for round cables.

For cables with lower weight (e.g. pendant station application)

Benefits

Gentle cable clamps prevent the cables from sharp bends

Application range

For hoisting equipment and conveyor systems

Mechanical engineering

Not suitable for applications in explosive environments

Note

Round- and flat cables are not allowed to be combined side by side or below each other

Don't assemble more than three clamps for round cables below each other

Bending radius on the bracket corresponds to a fixed installation

Product Make-up

The installation of a system depends on various criteria, e.g. maximum cable slack (cable weight) and working length.
