Additional Product Information

Category 6 RJ45 socket shielded STP. 2 modules. 90° inclination. Mosaic. White. The RJ45 Mosaic socket connects a device (PC, printer) to the local network (ISP router, switch). Cable distribution ensures a high-speed, secure, and reliable Internet connection. It is completed with a stand and plate. Cat 6 : Data transmission rate of up to 1 GigaBit/s. This allows you to download a 1 GigaByte file in 8 seconds. Supports high-capacity PoE applications. Power over Ethernet passes electrical power along with data into twisted-pair Ethernet cabling. Equipped with a transparent protective cover that protects the connector, and an integrated retractable cable to easily plug in your device. The arrangement of the clamping clips is specially designed for nestable columns or mini-columns and allows you to position the label space horizontally. Suitable for direct clipping columns and mini-columns. Suitable for commercial and residential installations. IP and analog phones. Very suitable for downloading, streaming, or online gaming that requires low latency. Tool-free connector with quick connection thanks to integrated crimping. Compatible with cables equipped with RJ11, RJ12 or RJ45 plugs. The slot system allows for perfect and easy placement of the multi-hook. The support frames can be perfectly joined thus facilitating installation. It can be installed in a normal recessed box (simple 40mm), without the need for additional cuts in the wall or wiring. It is strongly recommended if c...
