Additional Product Information

FeaturesNX Stand-alone Safety Controller

NX-Safety Stand-alone is a powerful, modular and easily commissioned safety controller which, due to its scalability, can be efficiently adapted to the requirements of a wide variety of safety applications. Thanks to this modular and expandable hardware, the compact safety controller grows with its task slice-by-slice - right up to the highest safety level. You can grow up to 256 I/O points in one single Safety CPU. The design of safe system solutions is thus considerably simplified.

The system meets PLe according to the EN ISO 13849-1 and SIL3 according to the IEC 61508 and Cat.4
