Additional Product Information

FeaturesR89F-M

Reduction of the required design effort due to uniform supply voltage

A rated voltage range of 100 to 240 VAC allows use in 100 VAC and 200 VAC systems. Rotation speed remains constant even with different input voltages

Shorter replacement times, thanks to longer service life

Expected life of 60,000 hours (approximately 6 years)

Power consumption is reduced by about 72% compared with conventional AC fans

Available in set packages (including finger guards, connector cables and mounting screws)

CE marking and certification according to various standards, including UL and CSA
