Safety Warning
Safety instructions WARNING: Connectors must not be connected or disconnected under load. Failure to comply with it and use it in accordance with the rules may result in damage to persons and/or property.
• WARNING: Only operate products in perfect condition. Regularly check the products for damage. Immediately take out defective products. Replace the damaged products. The item cannot be repaired.
• WARNING: Have the product installed and operated only by qualified electrical personnel in accordance with the following safety instructions. Specialists must be familiar with the basics of electrical engineering and must be able to recognize and avoid hazards. The corresponding symbol on the packaging indicates that the intervention of qualified electrical personnel is required.

• The products are suitable for the areas of system assembly, control and assembly of electrical appliances.
• When operating the connector outdoors, these environments must be protected from environmental influences.
• Packaged products must not be handled or opened incorrectly.
• Only use plugs specified in the standards specified in the technical data (e.g. those listed in the product accessories on the phoenixcontact.com/products website).
• If you use the product directly in conjunction with third-party products, you are entirely responsible for this.
• For operating voltages > 50 VAC, conductive connector housings must....
