

**INDUSTRIAL COMPONENT DATA**

# 7LQ3357 SIEMENS signaling and test panel for hospital switch modules 24V AC DC 50/60Hz, flush mnt.

Brand: SIEMENS | Manufacturer Part Number: 7LQ3357

|                 |                                               |
|-----------------|-----------------------------------------------|
| Manufacturer    | SIEMENS                                       |
| MPN / Reference | 7LQ3357                                       |
| Catalog number  | 10000                                         |
| Category        | Signalling and operation panel for bus system |
| Minimum order   | 1 Pcs                                         |
| Document ID     | EO-2353432B3A                                 |
| Generated       | 2026-08-04                                    |

## Product Overview

signaling and test panel for hospital switch modules 24V AC DC 50/60Hz, flush mnt.

**STRUCTURED PRODUCT DATA**

## Technical Specifications

No structured technical attributes are currently available. Submit an RFQ for technical review.

## Classification & Catalog Path

Catalog path **SIEMENS > POWER DISTRIBUTION AND LOW VOLTAGE SWITCHGEAR > Other Modular Systems**

## Additional Product Information

ETIM: EC000783 - Signalling and operation panel for bus system

Value Unit

Mounting method (EF000003) -

Radio frequent bidirectional (EF009466) -

Bus system KNX (EF001499) false

Bus system KNX radio (EF008855) false

Bus system radio frequent (EF001500) false

Bus system LON (EF003831) false

Bus system Powernet (EF001501) false

Other bus systems (EF003811) None

Assembly arrangement (EF000005) Control element with cover frame

Model (EF000010) Signalling and operating panel

Text field (EF001515) false

Display (EF000360) None

Touch function (EF008086) false

Additional interfaces (EF008116) Other  
Bus connection included (EF001504) false  
Material (EF002169) Plastic  
Material quality (EF001257) Duroplast  
Colour (EF000007) Grey  
RAL-number (similar) (EF003882) 7035  
Degree of protection (IP) (EF005474) IP40  
signaling and test panel for hospital switch modules 24V AC DC 50/60Hz, flush mnt.  
Model  
product brand name SENTRON  
Product designation Signaling and test panel  
Design of the product For switch modules Hospital  
Type of composition Operator control with frame  
Design of bus system message panel and operating panel Signaling and operator panel  
design of the display / touchscreen No  
General technical data  
Deflection amplitude / for vibration test / during operation 0.35 mm  
Operating mode / for monitoring rooms used for medical purposes Continuous operation  
Operating temperature  
? minimum -20 °C  
? maximum 45 °C  
Designation / of the terminal EN 50005  
Frequency / of the frequency cycle / for...
