Additional Product Information

Single-family hands-free kit with Classe 100V16E monitor and SFERA NEW modular pushbutton outer plate with aluminum front, with 5 MPx wide-angle HQ color camera with digital filters and white LEDs for shooting field illumination. White LED light for labels. The monitor has a 5" LCD screen and teleloop function (to allow use by hearing aid wearers equipped with a T-selector). It has 2 physical buttons to control the main functions - response and completion of communication - it is equipped with 3 touch buttons to control the main functions - opening the lock, activating the stair lights and activating the outer plate/cyclic display of the cameras - plus 4 configurable touch buttons - e.g. intercom, Activation of the additional lock. The device has a side wheel to regulate: the color, brightness and contrast of the screen, the volume of the audio and the volume of the ringtone. It has an LED to indicate the status of the call. Installation can be done on the surface with the corresponding metal stand (supplied) or tabletop thanks to the tabletop stands (2x344692) - sold separately. The device, which also has a professional studio function, must be configured. With video Yes
