Additional Product Information

Single-family hands-free kit with connected monitor Classe 100X16E Wi-Fi, hands-free, 5" LCD screen, SFERA NEW modular pushbutton outer plate with aluminum front and 5 MPx wide-angle HQ color camera with digital filters and white LEDs for shooting field illumination. White LED light for labels. It has 2 physical buttons to control the main functions - communication response and completion - it is equipped with 3 touch buttons to control the main functions - lock opening, activation of the stair lights and activation of the outer plate/cyclic display of the cameras - plus 4 configurable touch buttons - e.g. intercom, Activation of the additional lock. The device has a side joystick to regulate: the color, brightness and contrast of the screen, the volume of the audio, the volume of the ringtone and the Wi-Fi settings. It has LEDs to indicate the status of the call and Wi-Fi. In addition, thanks to the Wi-Fi connection it is possible to pair the device to the Home + Security App (available for Android and iOS). From the App you can control the main functions of the video intercom (receiving the call, opening the locks, activating the outer plate/cyclical display of the cameras, updating firmware and additional activations). Installation can be done on the surface with the corresponding metal stand (supplied) or tabletop thanks to the desktop stands (2x344692) - sold separately. The device, which also has a professional studio function, must be configured. With video Yes
